HUSSAIN SAGAR

A heavenly sight of Lord Buddha and India's second tallest national flag

- Distance from **HITEX 11 Kms**
- Travel Time **50 mins**

Built in the 16th century, Hussain Sagar Lake with a 3 km long dam wall is the largest artificial lake, which holds water perennially. The lake also has a charming promenade that doubles up a busy thoroughfare today.

Amidst the heavenly view of a serene lake stands the auspicious statue of Lord Buddha! Well, this is not just an imagination but a real destination. Built by Hussain Shah Wahi in the year 1562, it is one of the few man-made lakes in India. The lake, which serves as a link between Hyderabad and Secunderabad, was constructed on the tributary of River Musi to provide adequate water supply to the city. Today, it stands proud as one of the most visited tourist spots in Hyderabad.

A musical fountain adds to the beauty of the Lumbini Park which encircles the lake on one side. On the other side of the lake is the majestic Birla Mandir sculpted on an elevation. The entrance is marked by a white arch with two lions standing beside the pillars on each side, showcasing the traditional Hindu temple design. The monolithic statue of Lord Buddha, made up of granite, stands tall at a height of 16 meters. The sparkling row of lights that outline the lake give the impression of a "diamond studded necklace" at night. You can witness this blissful sight standing at the Tank Bund road which has well laid foot-paths and benches.

The skyline of Hyderabad above the picturesque Hussain Sagar Lake has become more colorful with country's biggest flag fluttering atop a sky-kissing pole at a record height of 88 meters. The national flag with a gigantic size of 108 in width by 72 feet in length was hoisted by the Chief Minister K Chandrashekar Rao.

Adjacent to the Tank Bund Road, is another boulevard popularly known as the Necklace Road. With beautiful gardens on both the sides, this road is often crowded with visitors in the evenings. The Hussain Sagar Lake is also the hub of a number of activities that are carried out to entertain the visitors. Major attractions include a boat ride from the Lumbini Park to the Buddha Statue, cruises with on-board dining facilities, speed boats and a number of cultural activities carried out by resident cultural departments.

Being a site of major attraction for the tourists, the deteriorating conditions of the lake definitely call for attention. Nonetheless, the mesmerizing view and the calmness in the atmosphere make the place worth visiting!

HISTORICAL PLACE

COO MESSAGE

Telangana is already on the path to achieve new milestones. The stable and pro-active government is improving mining infrastructure and technologies pool, which will continue to remain the drivers of the growth story further. Mining Sector is identified as one of the growth engines and certain minerals have been identified as focus minerals viz., Limestone, Coal, Iron Ore, Diamond, Dolomite, Uranium, Garnet, Granite for establishment of Cement, Thermal Plants, Granite Cutting and Faceting, Steel and Sponge Iron as focus industry for overall growth and development of the Mining Sector in the State.

There is significant mineral potential that still lay untapped in Telangana for the growth of mining industry. Now that a separate State has been formed, a systematic regulatory and administrative procedures, infrastructure facilities leading to sustainable exploration and mining activity needs to be formulated. Both Public and Private Sectors established large and medium scale mineral based industries for manufacture in Telangana State.

The newly separated Telangana state from the state of united Andhra Pradesh has a unique geological set up that can host a variety of mineral deposits of economic value. Geologically the State, Telangana is endowed with various rock types belonging to Archean to Quaternary age.

The Mineral consumption is increasing due to promotion of various industries and manufacture of Mineral based products. State produces about 33 million tonnes of industrial minerals, 50 to 55 million tonnes of coal and 54 million cubic meters of dimensional stones and building material. The Department also carried out preliminary survey studies and identified exclusive mining zones in Rangareddy, Mahabubnagar, Nalgonda and Medak districts for declaration as mining zones for sustainable development of Mining.

Besides, as Global Exhibitions Day 2017 (GED17) is just around the corner, HITEX wishes all those in the exhibitions industry a happy 'Global Exhibitions Day 2017'. You can find more details regarding these topics in the coming pages.

K. V. Nagendra Prasad
COO, HITEX

IEIA OPEN SEMINAR 2017

'EXHIBITIONS: ECONOMIC GROWTH ENGINES'

The Indian Exhibition Industry Association (IEIA) Open Seminar 2017, was successfully held at Bombay Convention & Exhibition Center (BCEC), Mumbai, India from 4th to 6th May 2017 with the theme 'Exhibitions: Economic Growth Engines'.

This 3-day event was supported by global industry associations- UFI, IAEE, SISO, SACEOS, AEFI etc. where all the leading Indian and international industry professionals converged for networking, business prospecting, knowledge sharing, working out partnerships and collaborations, M&A discussions, business development and lot more.

Standing parallel to its theme 'Exhibitions – Economic Growth Engines', IEIA Open Seminar 2017 lead thought provoking sessions on the overview of exhibition industry, boosting revenues, growth strategies and ideas on marketing and brand promotion. The event provided a valuable networking platform to the industry.

Leading exhibition organizers & conference managers, international players looking for joint ventures in India, industry professionals from exhibition services and key government officials attended the show. It was an insightful and thought provoking event as the

dignified speakers presented strong facts to support the significance of role played by exhibitions in a country.

To sum up, it was a successful edition by the association to put across a fresh appeal to the govt. to provide them recognition as a vital Industry. This event will certainly go up as a grand thrive step in unifying the voice of the Exhibition fraternity.

Telangana Government to Celebrate Formation Day on 2nd June 2017

Telangana Government is all set for the week-long celebrations to observe Formation Day on June 2, marking three years of formation of the youngest state. The 31 districts in the newly-formed state will be gearing up to celebrate 'Telangana Formation Day' that will witness a host of events as part of week-

long celebration on Telangana's culture and struggle (for statehood) on a grand scale. The official celebrations will have a series of cultural and literary programmes along with a slew of events that will showcase the rich history and culture of the new state.

Telangana was formed as the 29th state of the country on June 2nd 2014, after it was carved out of Andhra Pradesh. The story of Telangana has been a very symbolic and heroic one.

In the last year, the Telangana government unfurled India's largest flag on the second Anniversary of the State's formation. Chief Minister K Chandrashekar Rao had hoisted the largest tricolor Indian flag in Hyderabad. The flag stood tall at 88 meters on the banks of Hussain Sagar Lake in Sanjeevaiah Park. The gigantic flag measures 108 by 72 feet.

Telangana is now gearing up for its third anniversary to create a mood of festivity. At district-level, the celebrations will begin with paying tributes to Telangana martyrs on June 2. Numerous venues in Hyderabad as well as Telangana Bhavan would be hosting these events for the public.

Global Exhibitions Day (GED) is a day to celebrate the exhibition industry and the people who work in it!

GED17 highlights the power of face-to-face exhibitions to boost business, jobs and investment – and inspire millions. This year, it's coming on 7th of June to celebrate and promote the exhibition industry, highlighting the contributions made to local and national economies and demonstrate the importance of exhibitions.

The global initiative of GED was piloted by Paris-based UFI (The Global Association of the Exhibition Industry) and the IAEE (International Association of Exhibitions and Events). With the support of UFI's unique network of 56 national exhibition associations, Global Exhibitions Day highlights the exhibition industry's important role in contribution to the global economy.

The primary goal of the Global Exhibitions Day is to educate companies and organizations about the efficacy and merits of exhibiting, the key support role of exhibitions for the development of trade and internationalization, and the stimulating role exhibitions play in driving innovation and competitiveness of companies.

Global Exhibitions Day plays a major role in promoting international trade and economic growth. This global initiative unites people across the exhibition industry regardless of their position, employer, level of experience, origin, culture, language and gender, sharing the same passion for the exhibitions industry.

GED - 7 June 2017 - is a chance for thousands of exhibition industry professionals to celebrate the exhibition industry around the world and highlight its positive impact on jobs, business, people, innovation and local investment.

The first ever GED, held on 8 June 2016, mobilized the exhibition industry like no other campaign before. GED16 offered insight into the diverse and extraordinary working place that the exhibition industry is. Thousands of industry professionals joined events and activities in 60 countries. Associations, companies, universities and individual professionals alike demonstrated their support.

The exhibition industry is now getting ready for GED17.

INDUSTRY STATISTICS

- More than 260 million visitors flock to exhibitions each year globally, thereby providing valuable face-to-face interaction with potential clients and business partners.
- The global exhibition industry is valued at USD 55 billion. Hence, exhibitions not only promote a single industry on a microeconomic level, but stimulate growth and the development of infrastructure for the entire economic.
- With 4.4 million companies exhibiting each year, exhibitions support the development of trade and are an instrument of internationalization.

MINING INDUSTRY IN TELANGANA – UNEARTHED POTENTIAL

Mining is one of the core sectors that drive growth in an economy. Not only does it contribute to GDP, it also acts as a catalyst for the growth of other core industries like power, steel, cement, etc., which, in turn, are critical for the overall development of the economy. Recent analysis has shown that every one percent increment in the growth rate of mining and quarrying results in 1.2 – 1.4% increment in the growth rate of industrial production and correspondingly, an approximate increment of 0.3 percent in the growth rate of India's GDP. After clocking an average growth rate of 4.8% over the 5 years between 2006-07 and 2010-11. Sector is expected to go to 5-6% in next few years. Indian Mining sector was valued at INR 2800 crore in 2012 and can generate additional output of INR 4400 crore by 2025 under a business-as-usual scenario, which can grow to INR 7000 crore under an accelerated reforms regime from now to 2030. The Government of India has allowed 100 per cent foreign direct investment (FDI) in the mining sector under the automatic route. Mining lease has been granted for a long duration of minimum 20 years and up to 30 years

With India being the world's fastest growing economy with growth around 7.2% the demand growth continues to create ground for a robust sector, the supply remains shackled. India's thermal coal demand will increase to ~1350mtpa by 2020, driven by high power demand and expected rise in PPA rates. Similarly, the iron ore demand will reach ~200mtpa by 2020 and metallurgical coal demand will rise to ~80mtpa by 2020. If the potential is tapped fully, the metals and mining sector can contribute INR 15000 crore per annum to GDP by 2020.

MINERAL SECTOR TELANGANA - MINING OUTLOOK

Telangana region has rich natural resources. About 20 per cent of the country's coal deposits are also found here. The State accounts for an estimated 300 crore tonnes of coal, 200 crore tonnes of limestone. The Singareni Collieries Company Limited excavates coal from these mines for industrial needs and also to cater to thermal power stations. Telangana is also rich in limestone deposits that cater to cement factories. Telangana has other mineral resources like bauxite and mica.

The minister of Telangana State for industries and mines, K.T. Rama Rao, recently stated that TS also topped the country in mineral revenue collection

in 2016-17. TS earned INR 3,169 crore in 2016-17 against INR 2,369 crore in 2015-16, recording 34 per cent growth rate, the highest in the country.

PRODUCTION OF PRINCIPAL MINERALS

The production of certain principal minerals during the year 2014-15 are 527.19 lakh tonnes of Coal, 218.97 lakh tonnes of Limestone, 37.56 lakh tonnes of Stowing Sand, 23.52 lakh tonnes of Laterite, 6.11 lakh tonnes of Feldspar, 5.53 lakh tonnes of Dolomite etc., in the State.

SINGARENI TO OPEN NEW MINES

To meet the power demands of the State, Singareni Collieries Company Ltd (SCCL) is planning to open new mines and sets a target to produce 9 crore tonnes of coal per year by 2020-21. This is intended to meet the demands of the new upcoming thermal power projects in the State and various other coal based industries.

CONCLUDED EVENTS
